Sustainability at the Phoenix Zoo
Sustainability + Real Project + Animals = WIN!

Sustainability, Biomimicry, Design, Life Science, and Creative Storytelling will be part of this interdisciplinary effort to re-envision the Phoenix Zoo as a sustainable Sonoran Desert organism.

Students in this workshop class will work with Zoo staff and ASU faculty from the School of Sustainability, the Design School, and the Biomimicry Center to create solutions that move the Zoo toward a more sustainable future.

Lead Instructors: Paul Prosser and George Basile
Guest Instructors: Michelle Fehler, Adelheid Fischer, and Joni Adamson

Email Paul.Prosser@asu.edu for more information.
